Reorder buttons, hide unused ones. Export and import settings.

### **Integrated Apps**

Google Maps, Calendar, Weather, Currency Rates, Large Digital Clock.

# 1. Home Screen

The VIP Control home screen is the central management hub for all systems in your vehicle.

Theme 1

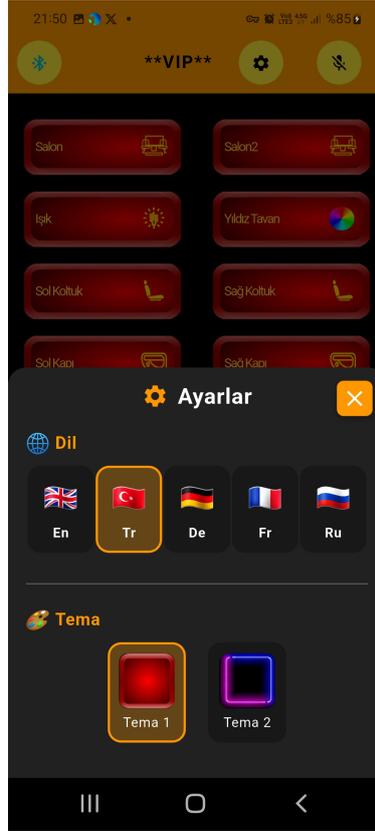

Theme 2

- Bluetooth Icon: Blue = connected, Red = not connected.
- Door Controls: Use the door buttons on the home screen to open/close left and right doors.
- Navigation: Tap button groups to quickly access sub-screens like Lounge, Lighting, Seat, etc.

## 2. Theme and Language Settings

Access the modern selection menu via the settings button in the top bar.

Language and Theme Selection Menu

- Language Selection: 5 different language options (TR, EN, DE, FR, RU).
- Theme Selection: Change the visual design instantly.
- Auto-Close: The settings panel closes automatically after 5 seconds of inactivity.

### 3. Landscape Screen Usage

---

When you rotate your tablet or phone to landscape, button layouts are automatically optimized on all screens. Portrait mode is recommended.

Landscape Screen View

## 4. Voice Command (Microphone) Usage

Note: An active Internet Connection is required for the voice command feature to work.

Voice Command Screen

- Tap the Microphone button at the bottom to start listening.
- Read the voice command labels shown on buttons to activate features.
- Example commands: "Television", "Turn on Lights", "Turn on AC" ...

## 5. Lounge and Entertainment Systems

---

Manage multimedia and comfort equipment in your vehicle from the Lounge screen.

Lounge Screen

- Television: Raise and lower the TV lift.
- Cameras: Switch between front and rear camera views.
- Fridge and Coffee: Control kitchen appliances.
- Drawers and Tables: Manage motorized mechanisms.

## 6. Lighting System

---

Change the atmosphere inside your vehicle with rich lighting options.

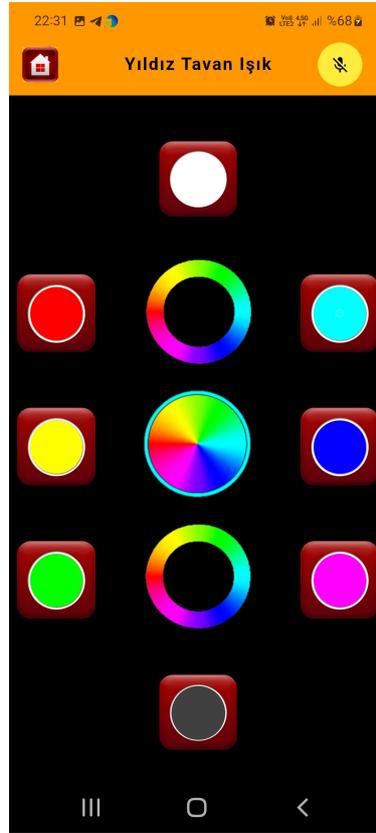

Lighting Control

- RGB Color Palette: Touch to select any color.
- Brightness Control: Use the slider to set the light intensity.
- Memory Button: Press the center button to recall saved lighting scenarios.

## 7. Starry Ceiling

Full control of fiber optic star lighting on the vehicle ceiling.

Starry Ceiling

- Animation Button: Press the rainbow-colored conical button to activate special animation modes.

## 8. Seat and Comfort Elements

Control all seat functions in your vehicle from this screen.

Left Seat

Right Seat

### Reverse-Facing Seats

Reverse Left Seat

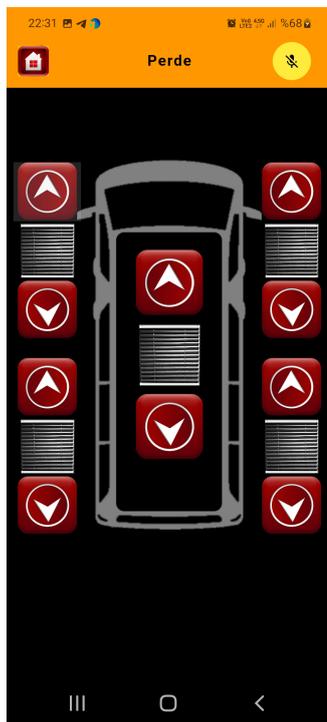

Reverse Right Seat

- Seat Controls: Manage all seat movements, massage and heating functions for each seat.

## 9. Curtains and Butterfly Windows

---

Easily control all curtains and butterfly windows.

Curtains and Butterfly Window

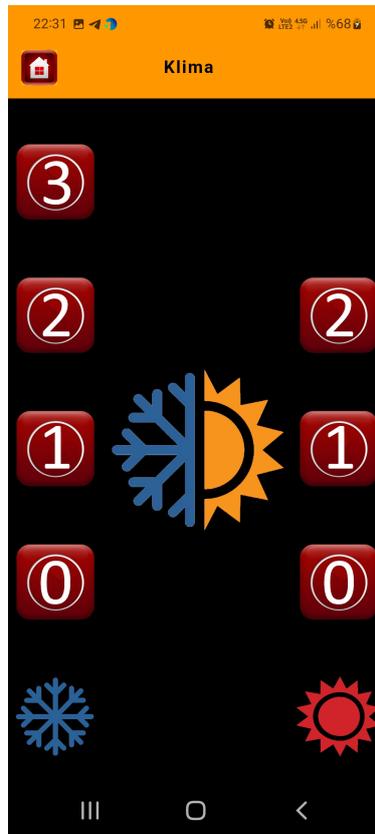

Lounge 2

## 10. Air Conditioning (Climate)

---

Manage AC systems, temperature and fan speed from this screen.

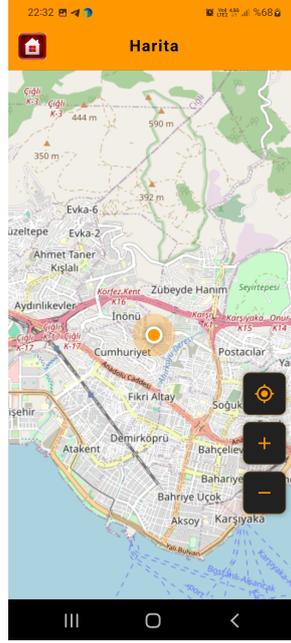

Climate Control

## 11. Info, Maps and Calendar Tools

Integrated tools for your daily needs. Internet is required for weather and navigation. Tap the Map, Calendar or Clock buttons on the home screen to access these info screens.

Weather / Info

Map

Calendar and Clock

## 12. Bluetooth Connection

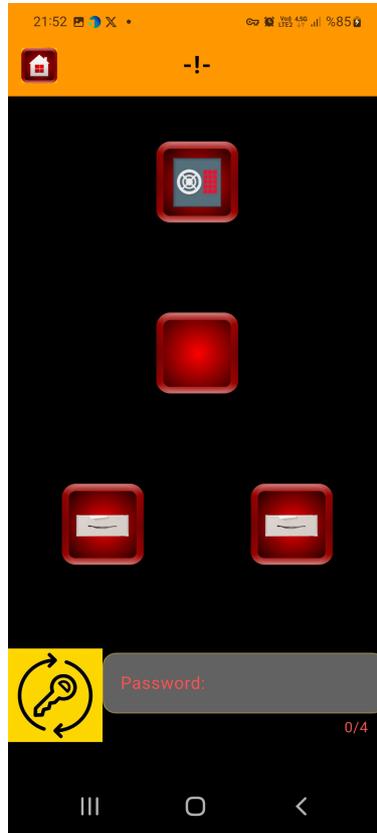

1. Tap the Bluetooth icon in the top bar.
2. Press SCAN to find the vehicle device.
3. Tap the device and press CONNECT.
4. Auto Connect: With this option enabled, the app automatically connects to your vehicle every time it opens.

Bluetooth Connection Screen

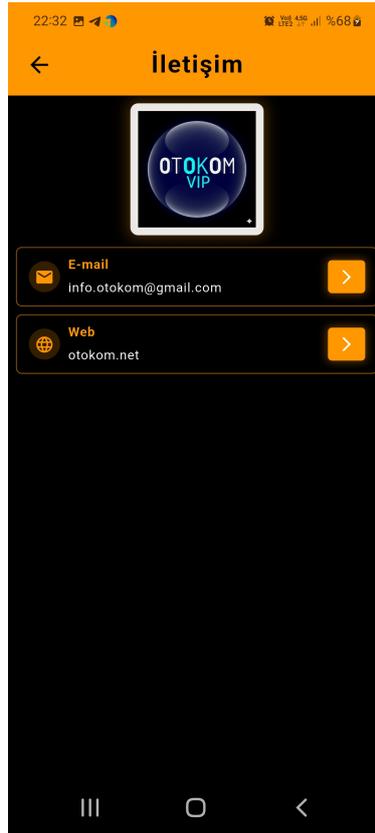

### 13. Security (Safe and Hidden Compartments)

Secure the control of your safe and hidden compartments with your personal password. Maximum protection for your valuables.

## 14. Contact and Support

---
